– Why dogs behave as they do

Presented by Carolyn Menteith

Would you like to host this seminar?

It can be organised for any time over a weekend or a weekday evening.

Seminar Programme

Topics are likely to include:–

From wolf to dog
... how did that happen?

Why all breeds are different
– and what it means for their owners

Socialisation and habituation

How dogs learn
– and how we can train them

How to deal with behaviour problems

Improving your relationship with your dog

This seminar will appeal to dog owners, professionals and those working towards KCAI accreditation

Carolyn Menteith

The content is subject to change.

The seminar is expected to last up to 2½ hours.

The Presenter

Carolyn Menteith DipCABT, KCAI is a dog trainer and behaviourist with over 20 years' experience of working with dogs, both here and overseas. She is frequently seen on TV and radio talking about all things doggie, and regularly talks and teaches at events such as Crufts, Discover Dogs in Earls Court and at the International Companion Animal Welfare Conference.

Carolyn is a prolific writer about dogs, dog training, dog behaviour, dog care and dog welfare in national magazines and books for the past fourteen years and has recently been involved in creating:–

- ❁ A series of videos called “*Dog Training Made Easy*”
- ❁ An app entitled “*You and Your Puppy*” for Dogs Trust
- ❁ “*The Puppy Plan*” – a joint initiative between the Kennel Club and Dogs Trust

Carolyn has a relaxed and fun style and would especially appeal to:–

- ❁ Relatively new owners (*or prospective owners*) who need help with behaviour or training issues, or who are looking to prevent problems in the future
- ❁ Experienced dog owners who would like a deeper insight into their dog's behaviour, or who would welcome a different viewpoint
- ❁ Anyone else who is interested in the behaviour of dogs, and why they act as they do

She is passionate about reward-based dog training and has a strong desire to improve the life of as many of the nation's dogs (*and owners!*) as possible.
